

KB 1702323

Command line prompts for installing Infor CRM Xbar

Description:

Use the following command line prompts to install Infor CRM Xbar.

Resolution:

Open a command line prompt and run as Administrator:

- **To install xbar in per-user mode:** "Infor CRM Xbar Setup.exe"
- **To install xbar in per-user mode silently:** "Infor CRM Xbar Setup.exe" -silent
- **To install xbar in per-machine mode:** "Infor CRM Xbar Setup.exe" ALLUSERS=1
- **To install xbar in per-machine mode silently:** "Infor CRM Xbar Setup.exe" ALLUSERS=1 -silent
- **To uninstall xbar:** "Infor CRM Xbar Setup.exe" -uninstall
- **To uninstall xbar quietly:** "Infor CRM Xbar Setup.exe" -uninstall -quiet
- **To install Xbar to the C:\Xbar directory which is shared by all users:** Go to the directory where the Infor CMR Xbar Setup.exe is located and run the following command: "Infor CRM Xbar Setup.exe" TARGETDIR="C:\Xbar" ALLUSERS=1

The following applies to version 1.3 and later of Infor CRM Xbar for Microsoft Outlook only:

In Infor CRM Xbar for Microsoft Outlook version 1.3 and later, you can push installation of the full functionality or choose to install only Outlook Sync/Email or only the Xbar sidebar panel.

- **Full functionality** installs both Outlook Sync/Email integration and Xbar Side Panel.
- **Outlook Sync/Email Integration** installs the following pieces:
 - Email Integration: Send to CRM and Record to History, Address Book, Vcard.
 - Desktop Manager: Contains the interactive UI that displays for Send to CRM and Record to History
 - Outlook Sync: Allows you to synchronize your contacts and calendar between Infor CRM and Outlook.
 - Calendar SData Push: Enables the activity pane to display when in an appointment in Microsoft Outlook.
- **Xbar Side Panel** adds the Xbar side panel to your instance of Microsoft Outlook. When the side panel is connected to your installation of Infor CRM, users can work with and modify the CRM information, taking actions and updating the information as necessary.
- **To install Full Outlook Integration & Xbar:** Run "Infor CRM Xbar Setup.exe"
- **To install Outlook Integration only:** "Infor CRM Xbar Setup.exe" DI_ONLY=1
- **To install Xbar only:** "Infor CRM Xbar Setup.exe" XBAR_ONLY=1

Note:

- If the installer exe is not in the current directory, then the current directory needs to be changed to where the exe is located or the path needs to be supplied to the location of the exe, for example: "C:\myfolder\installs\Infor CRM Xbar Setup.exe".
- The default installation locations for Infor CRM Xbar for Microsoft Outlook are C:\Users\XXX\AppData\Local\InforCRM\Xbar and C:\Users\XXX\AppData\Roaming\SalesLogix\XBar.
